

Krishu Prajapati

BCA Student | Aspiring Software Engineer

Career Objective

I want to grow into a **skilled professional software engineer** who builds clean, useful products. I am a BCA student who learns by building: I practise data structures and algorithms in C++ on LeetCode and ship real web apps. I am looking for an internship or junior role where I can learn from experienced engineers and contribute from day one.

Education

Bachelor of Computer Applications (BCA)

2025 - Present

Shri Ram PG College of Commerce & Education (affiliated to MGKVP, Varanasi)

Currently in 2nd year. Focus: C / C++, data structures, web development.

Intermediate (Class 12), PCM

78%

UP Board

Project

KP Study Hub - bca-study-hub-kp.web.app

Live study resource website for BCA students

- Built and deployed a study resource site where BCA students find notes, guides and practice material in one place instead of scattered chats.
- Hosted live on Firebase Hosting and used by classmates; evolved from my earlier BCA Study Hub web tool.
- Planned upgrades: user login, admin panel and a comments section.
- Tech: HTML, CSS, JavaScript, Firebase.

Technical Skills

Languages C, C++

Web HTML, CSS, JavaScript

DSA Arrays, Two Pointers, Sliding Window, Linked Lists (solved in C++ on LeetCode)

Tools Git, GitHub, Firebase, AI-assisted coding

Learning Software architecture, system design basics

Coding Profiles

LeetCode - regular DSA practice in C++
